

You're Invited!

Thursday, December 14th
Lenape High School

In support of the Lenape Regional High School District's 2017 One Book - *Hidden Figures*, Lenape High School will offer a "Coding Night" on December 14th from 6-8pm in the media center.

This is an opportunity for students to interact with the basics of computer science and to foster the idea that anyone, regardless of age and background, can learn how to code. Included is an on-line component as well as an unplugged version which will encourage students to think creatively and use their imagination to problem solve.

Lenape students and Mount Laurel Township students in 3rd through 8th grade are welcome to attend. To sign up, visit www.LRHSD.org/LenapeCodingNight. Space is limited and on a first come, first served basis.

Students should bring headphones or earbuds - and their creativity!

Current LRHSD students with an interest in the fields of computer science, science, technology, engineering, and math will be participating and assisting students who sign up for this event.
